

Care Guide Accessories

**A little care goes
a long way.**

Essential tips for protecting your noo.ma products.

Please review them before first use.

- ✓ Avoid placing accessories in direct sunlight or near a strong heat source to reduce changes.
- ✓ Always remove stains quickly before they can cause any permanent damage to the product.
- ✓ Be careful not to scratch or damage the surface with sharp objects.
- ✓ Keep away from flammable objects, children and pets.

Wooden tableware

- These products are not dishwasher-safe. Hand wash only with mild soap.
- Avoid prolonged exposure to water and extreme temperatures (e.g., near radiators or in refrigerators).
- Highly pigmented foods may cause temporary stains that usually fade after several washes.
- If the wood starts to feel dry, we recommend applying oil to help protect and preserve the surface. Use a natural plant-based oil, such as linseed (flaxseed) or coconut oil. Rub a small amount into the bowl or platter, leave it for 30 minutes, then wipe off any excess.
- The Oul Serving Set is not intended for use with sharp objects (e.g., as a cutting board).

Cutlery

- All cutlery is dishwasher-safe.
- When washing by hand, avoid using metal scrubbers.
- To preserve the handles' color, avoid leaving the cutlery in staining liquids, such as coffee, tea, or tomato sauce.

Stainless steel

- All stainless steel products are dishwasher-safe.
- Not suitable for microwave use.

Steel accessories

- To clean the surface, use a soft cloth with a mild detergent.
- Avoid prolonged exposure to water and extreme temperatures (e.g., near radiators or in refrigerators).

Ceramics

- If broken, sharp fragments may cause injury.
- Avoid intense exposure to extreme temperatures.
- All ceramic products are dishwasher-safe.
- Not suitable for microwave use.

Glass

- Minor irregularities are not a defect; they occur during production process and make each piece unique.
- Fragile — handle with care.
- Keep away from children and pets.
- If broken, sharp fragments may cause injury.
- Avoid intense exposure to extreme temperatures.
- All glass products are dishwasher-safe.

Mirrors

- Fragile — handle with care.
- To clean the surface, use a soft cloth with a mild detergent.
- If broken, sharp fragments may cause injury.
- Avoid prolonged exposure to water or excess moisture.

Candle holders

- Secure the candle in place using the central spike.
- To clean the surface, use a soft cloth with a mild detergent.
- Extinguish the candle before it burns down completely to help prevent staining.
- Always burn within sight.
- Wax can be removed with warm water.

Failure to follow these instructions may result in a fire hazard, injury, or smoke damage. Keep the wick centered and trimmed to 1/4 in (6 mm) to prevent smoking and soot buildup on the holder or surrounding surfaces.
